- JavaScript
- Node.js
- Flutter
- GitHub

HOBBIES

- Painting
- Clay Modeling
- Reading Books

LANGUAGES

- English
- Hindi
- Marathi

PROFILE

Skilled Java and Flutter Developer with a strong background in building scalable, high-performance applications. Proficient in Java, Spring Boot, and Flutter, with hands-on experience developing end-to-end web and mobile solutions. Known for strong problem-solving skills and a passion for leveraging full-stack technologies to deliver efficient, user-focused, and impactful products.

E-commerce Flutter App

- Developed a feature-rich agricultural e-commerce app using Flutter, Node.js (Express), and PostgreSQL (Neon) for high performance and scalability. Implemented JWT authentication, cart, wishlist, and order management with interactive dashboards for Admin, Supplier, Farmer, and Customer roles.
- Focused on responsive UI with planned Riverpod integration and real-time push notifications for order updates.

Food Delivery android App

- Developed a full-featured food delivery app using Flutter and Supabase, supporting real-time order tracking, secure authentication, and online payments via Razorpay.
- Implemented location-based branch selection, smart cart management, and order history features for a seamless customer experience.
- Used Riverpod, GoRouter, and Supabase Realtime with PostgreSQL for efficient data handling and navigation.
- Delivered a scalable, user-friendly solution tailored for the restaurant chain.

Expense Tracker -Web Application

Technologies: Java, Spring Boot, MySQL, HTML, CSS

- Designed and developed a comprehensive Expense Tracker web application with custom CSS for an enhanced UI, reducing reporting time by 40%. Leveraged Spring Data JPA for pagination and filtering, and implemented JWT-based authentication for secure session management and access control.

EXPERIENCE

AVGC (Hybrid)

- Developed multiple Flutter-based mobile applications, including two e-commerce platforms and a food delivery app, focusing on performance, UI/UX, and seamless backend integration.

Bharat Intern (Remote Internship)

- Developed and optimized Java-based applications using Spring and Hibernate, improving performance efficiency by 20% and reducing project completion time by 25%.

EDUCATION

- B.Tech Computer Engineering** 2022 - 2025
Sanjivani College | Kopergoan
GPA: 8.4
- Diploma Computer Engineering** 2019 - 2022
Government Polytechnic | Ahmednagar
Percentage: 91.66 %

CERTIFICATIONS

- Java Collections from Basics to Advanced Udey
- Database Management System Scalar
